Product Manager with **10+ years** of work experience, including **5 in product** at Coolblue, a leading Dutch online retailer. I owned **two customer-facing AI agents**. The sales agent lifted conversion **6%**. My cross-sell logic added about **€3.5M margin** a year. Today I build AI products end-to-end with Claude Code, weighing value against effort.

Product Manager & AI Specialist

September 2026 - Present, Kuala Lumpur

- **Building AI tools** with agentic coding, one already in daily use

Coolblue Energie - Product Manager

January 2025 - September 2026, the Netherlands

- **AI Sales Agent:** took an AI sales chatbot from board pitch to production. Conversion rose 6%, hallucinations fell below 1%
- **AI Self-Service Agent:** made our service bot change contracts itself, with Legal-approved guardrails. Term amount tickets fell 30%
- **Regulatory Store Pivot:** pitched three scenarios to the board to make the 18-store welcome benefit compliant. Store sales held to forecast
- **Revenue Recovery:** launched a 72-hour prototype for undecided heat pump buyers. Conversion rose 3%, projected €480k a year

Coolblue - Data Product Owner

June 2024 - January 2025, the Netherlands

- **Data Product Vision:** set the vision for a platform serving 15+ data teams. It still guided the team almost two years later
- **Data Observability Adoption:** introduced data observability tool Monte Carlo with one pilot team, which gained more data insight than internal tooling

Coolblue - Product Owner

July 2021 - January 2024, the Netherlands

- **Margin-Aware Cross-Sell:** rebalanced recommendation logic through split tests. Attached margin per product rose 7%, worth about €3.5M a year
- **Cross-Sell Platform:** built a self-service platform for 100+ sales colleagues. Vendor placements added €140k in year one
- **Multi-Market Localization:** fit cross-sell to three markets without splitting the platform. A German reviews-first test lifted attached margin 8%

Product Toolkit

Product Delivery:

Jira, Figma, Lucid, Miro, Google Analytics, SQL, Looker, DataDog, BigQuery

AI and Build:

Claude Code, Anthropic API, LangSmith, n8n, Replit, Base44, Lovable, V0.app, Glean, Gemini, ChatGPT, Docker, GitHub, Vercel, Ngrok, PostHog, VS Code, Supabase

Certifications

Professional Scrum Product Owner (PSPO) 1

Professional Scrum Product Owner (PSPO) 2

ONVZ Health Insurances - Customer Services Agent

November 2014 - July 2021, the Netherlands

- **Multichannel Service:** served customers by phone, email, live chat and social media, and trained new colleagues
- **Product Portfolio Redesign:** led the customer service side of a portfolio redesign and trained 140 agents on the change
- **Self-Service Digitization:** helped make insurance statements for countries like Turkey and Serbia self-service, preventing urgent repeat calls

Leadership & internal activities

Coaching peers

- Mentored and coached 10 peers over three years, covering roadmap planning, agile practices, and personal growth

Training Creation & Facilitation

- Curated and facilitated a portfolio of 9 internal trainings (including Product Discovery and Strategic Roadmap Planning) to elevate organizational capability and adoption of best practices

Recruitment & Hiring

- Actively hired high-quality talent for the organization

Education

Master Business Administration - Vrije Universiteit Amsterdam

February 2019 - June 2020

Bachelor Business Administration - Hogeschool Utrecht

September 2012 - February 2017
