Languages

English (Native)

Dutch (Native)

Malay (Active Learner)

Impact-driven Product Leader with a 10-year track record of scaling conversion and operational efficiency across high-stakes e-commerce and highly regulated sectors. Specialist in continuous product discovery and rapid, hypothesis-led experimentation, utilizing cutting-edge AI environments to ruthlessly compress the time-to-value lifecycle. Recognized for stakeholder orchestration in complex corporate ecosystems, with a proven ability to (re-)architect product boundaries, eliminate systemic engineering bottlenecks, and mobilize cross-functional teams around high-yield business metrics.

Coolblue Energie - Product Manager

January 2025 - Present, the Netherlands

- **AI Product Ownership:** owning our AI-sales agent (achieved 6% conversion rate uplift) and self-service agent (decreased costs per contact by 13%)
- **Strategic Portfolio Pivot:** restructured product boundaries between two adjacent teams, eliminating a backend bottleneck and reducing technical maintenance by 8%p
- **Omnichannel Strategy:** Spearheading the sales roadmap across Legal and Tech to streamline in-store contracting for 18 stores
- **Revenue Recovery:** led a cross-functional recovery strategy that restored €480k in annual revenue (3% conversion uplift) by shifting from generic funnels to segment-specific journeys

Coolblue - Data Product Owner

June 2024 - January 2025, the Netherlands

- **Product Vision:** architected a long-term 'Data-as-a-Product' strategy, establishing a scalable BigQuery ecosystem that serves as the organization's primary intelligence foundation
- **Operational Efficiency:** established a structured collaboration framework that eliminated data silos and substantially increased cross-departmental tool adoption

Coolblue - Product Owner

July 2021 - January 2024, the Netherlands

- **Margin Optimization:** engineered a dynamic product recommendation logic via A/B testing, driving a 7% increase in attached margin and a 10% uplift in recommendation effectiveness
- **Internal Tooling:** designed and launched an internal cross-sell orchestration platform, enabling real-time collaboration between 100+ sales and content stakeholders

Product Toolkit

Product Delivery:

Jira, Figma, Lucid, Miro, Google Analytics, SQL, Looker

AI applications:

Claude (Code), n8n, Replit, Base44, Lovable, V0.app, Glean, Gemini, ChatGPT

ONVZ Health Insurances - Customer Services Agent

November 2014 - July 2021, the Netherlands

- Provided direct customer support across phone, e-mail, live chat, and social media
- Collaborated on product rationalization with a cross functional team, successfully revising the product portfolio and implementing changes for the 140-agent service department
- Initiated digitization projects that drove improvements in customer satisfaction and cost reductions

Sabbatical - Travelling Southeast Asia

January 2024 - June 2024

Certifications

Professional Scrum Product Owner (PSPO) 1
Professional Scrum Product Owner (PSPO) 2
